## Experience

---

### Geekyants

July 2025 – Current

#### Associate Business Analyst

Bengaluru, Karnataka

- Worked across **3+ client projects** spanning **discovery, design, and development** phases, supporting end-to-end product definition and timely delivery.
- Acted as **Scrum Master / delivery coordinator** on **3+ design & development** projects, driving sprint planning, backlog grooming, and on-time milestone delivery.
- Led **client communication** and **stakeholder coordination**, handling requirement clarifications, scope discussions, progress updates, and dependency management.
- Performed **requirement gathering, elicitation and feature listing** for **6+ projects**, converting vague client inputs into structured functional scope, feature lists, and application mind maps.
- Played key roles in **discovery projects**, defining user flows, feature scope, and supporting designers with functional inputs for wireframe creation.
- Created and maintained requirement artefacts — user stories, acceptance criteria, and process flows — translating business requirements into actionable engineering tasks.
- Supported analysis of **current-state** processes and documented **future-state** processes to support digital product implementation.
- Supported iteration planning, backlog refinement, and sprint execution activities, maintaining requirement traceability and alignment between business needs and delivery.

Recognition: Awarded *GeekWiz – Rising Star* for early impact and contribution. Selected among ~15 employees company-wide.

## Internships

---

### **Business Development Trainee – Intellipaat (4 months)**

- Client-facing role involving requirement understanding, solution pitching, client communication, and CRM-based lead management (Zoho).

### **Data Analyst Intern | Web Development Intern - 6WResearch (6 months)**

- Worked on data analysis and automation using Python & Excel, alongside building web application (Task Management & Chat) using React, Flask, and HTML/CSS which is currently being used by around 50 users in the same company.

## Education

---

**Teerthanker Mahaveer University, Moradabad**

Bachelor of Technology in Computer Science and Engineering

**CGPA: 7.9/10.0**

2021 – 2025
